

**THE CORPORATION OF THE TOWNSHIP OF WEST LINCOLN
COMMITTEE OF ADJUSTMENT
AGENDA**

Wednesday, October 25, 2023, 7:00 p.m.

Township Administration Building

318 Canborough Street, Smithville, Ontario

Pages

1. CHAIR

The Chair will call to Order the evening's proceedings.

2. DISCLOSURE OF PECUNIARY INTEREST AND/OR CONFLICT OF INTEREST

3. REQUEST FOR WITHDRAWAL AND/OR ADJOURNMENT

There are no requests at this time.

4. APPLICATIONS

- a. **B07/2023WL - B and A Heaslip Farms Ltd.**
Property Address: 4813 Canborough Road

3

A consent application has been applied for to permit a surplus farm dwelling severance for the lands located at 4813 Canborough Road. The land being severed with the dwelling and two of the three outbuildings is proposed to be 0.63 hectares (1.56 acres) shown as Parcel 1 on the attached sketch and Parcel 2, being the remnant farmland will be approximately 34 hectares (84 acres) following the severance. If approved, a condition will be required that the severed holding be zoned to Rural Residential and the remnant farmland be zoned to Agricultural Purposes Only (APO), restricting any future residential use or merging the lands onto an abutting property.

- b. **B08/2023WL Spring Creek Holdings Ltd.**
Property Address: 6159 Spring Creek Road

18

A consent application has been applied for to permit a minor boundary adjustment where 0.88 hectares (2.17 acres) being Part 1 on the attached sketch will be added to Part 3 which is currently 1.99 hectares (4.92 acres), and will be approximately 2.87 hectares (7.09 acres) following the proposed boundary adjustment. Following the consent application, Part 3 will retain Part 2 which will allow for the proposed

expansion to the existing Big Country Raw facility on the property.

- c. B13/2021WL - Change of Condition Request - Sikkens
Change of Condition Request - 7330 Concession Road 3, West Lincoln
Ontario - Surplus Farm Dwelling Severance.

5. MINUTES FOR APPROVAL

There are no minutes for approval at this time.

6. NEW BUSINESS

7. ADJOURNMENT

That, this Committee does now adjourn at the hour of _____ pm

REPORT

TOWNSHIP

COMMITTEE OF ADJUSTMENT

DATE: October 25th, 2023

REPORT NO: COA-021-23

FILE NO: B07/2023WL

SUBJECT: **Recommendation Report**
Application for Consent, Surplus Farm Dwelling Severance B & A
Heaslip Farms Ltd.

LOCATION: 4813 Canborough Road, Wellandport, ON L0R 2J0

CONTACT: Susan Smyth, Senior Planner

OVERVIEW:

- A consent application has been submitted by Ben and Pam Heaslip on behalf of B & A Heaslip Farms Ltd, property owner of 4813 Canborough Road.
- The Consent application is being requested to permit a Surplus Farm Dwelling Severance for the lands located at 4813 Canborough Road. The land being severed with the residence and two of the three existing accessory buildings is proposed to be 0.63 hectares (1.56 acres).
- 4813 Canborough Road has a total lot size of approximately 34.92 hectares (86.29 acres), following the severance, the remnant farmland will be approximately 34.0 hectares (84.02 acres) in size.
- If approved, a condition will be required that the severed residential lands be zoned to Rural Residential and the retained farmland be zoned to Agricultural Purposes Only (APO), restricting any future residential use as the owner has shown that merging the lands onto an abutting property is not possible.

RECOMMENDATION: Yes ☒ No ☐ Deferral ☐

THAT, the application for Consent made by B & A Heaslip Farms Ltd. as outlined in Report COA-021-23, to permit a Surplus Farm Dwelling Severance at 4813 Canborough Road, BE APPROVED, subject to the following conditions:

1. That the approval applies to the transaction as applied for.
2. That all municipal requirements be met to the satisfaction of the municipality including servicing connections if required, remitting the cash-in-lieu of park land dedication fee of \$1000, property maintenance, compliance with Zoning By-Law provisions for structures, and any related requirements, financial or otherwise.
3. That upon conditional approval of the Consent Application, the agricultural portion (Parcel 2 –retained lands) of the property is rezoned to Agricultural Purposes Only (APO) to preclude its use for residential purposes and (Parcel 1 –severed lands) be rezoned to Rural Residential (RuR) and any zoning deficiencies be addressed by a future Zoning By-law Amendment application.
4. That the applicant provide documentation indicating compliance with Part 8 (Sewage Systems) of the Ontario Building Code, to the satisfaction of the Township's Septic Inspector and Building Department.
5. That, a detailed survey be completed to determine where the 175.2 contour is and that the surplus farm dwelling lot lines do not dissect the flood elevation of 175.2 to the satisfaction of the Niagara Peninsula Conservation Authority.
6. That the owner applies for an entrance permit to provide access to Parcel 2 to the satisfaction of the Niagara Region

Respecting Our Roots, Realizing Our Future

and confirmation be received.

7. That the applicant provides the Secretary-Treasurer with a copy of the transfer documents for the conveyance of the subject parcel, or a legal description of the subject parcel to be registered, together with a copy of the deposited reference plan, if applicable, for use in the issuance of the Certificate of Consent.
8. That a final certification fee, payable to the Township of West Lincoln, be submitted to the Secretary-Treasurer.
9. That all of these conditions shall be fulfilled within a period of two years after the giving of the Notice of Decision of the Committee of Adjustment, pursuant to Subsection 53(41) of the Planning Act, failing which this consent shall be deemed to be refused.

BACKGROUND: Surrounding Land Uses and Natural Heritage

- 4813 Canborough Road is currently 34.92 hectares (86.29 acres) in size.
- The subject property is situated on the north side of Canborough Road, west of Heaslip Road, east of Wellandport Road (Regional Road 27) and Collver Road, and on the south side of Elcho Road which is also located east of the Hamlet of Wellandport.
- The subject property along with the surrounding land uses are designated in the Township's Official Plan as Good General Agricultural Lands and Natural Heritage System.
- A portion of the subject lands as noted forms part of the Natural Heritage System in the Township's OP, effectively being located along the north property line of about 8.39 hectares (20.72 acres) covering the forested portion of the property. The present Natural Heritage features include Provincially Significant Wetlands, Significant Woodlands, which forms both an Environmental Conservation and Environmental Protection area over these features. An Environmental Conservation area also conserves a valley shoreline located within the front yard of the property of about 0.79 hectares (1.95 acres). Please see the attached map for the noted Natural Heritage features, however, are not a factor of this application.
- The surrounding lands are actively farmed with a number of small rural residential properties.
- Both these designations protect and maintain long-term agricultural, and conservation use within the area.

CURRENT SITUATION:

Planning Staff have completed an analysis of the proposed Consent application and can provide the following evaluation:

CONFORMITY:

Provincial Policy Statement (2020) Yes ☒ No ☐

A Place to Grow (2019) Yes ☒ No ☐

Greenbelt Plan (2017) Yes ☐ No ☐ N/A ☒

Niagara Official Plan (2022) Yes ☒ No ☐

Does the proposal conform to the Township of West Lincoln Official Plan (2014)? Yes ☒ No ☐

Official Plan Designation: Good General Agriculture & Natural Heritage System

The Township's Official Plan permits consents for agricultural purposes, and only allows non-farm rural residential lots as part of a surplus farm dwelling severance which are subject to the regulations found in Section 18.13. The application meets the required criteria. The applicants are bona-fide farmers, who demonstrates a continuing commitment to their farm operation. The condition of approval to rezone the farmland also protects and preserves the area for continuous agricultural purposes which maintains and promotes the general intent and purpose of Section 4 of the Township's OP.

Additionally, the severed land with the dwelling is recognized by Policy 18.13.2(g), that the residential parcel shall not exceed 0.4 hectares (1 acre), except where necessary to accommodate the residence and private services. This is the case for the proposed parcel size of approximately 0.63 hectares (1.56 acres) which includes the residence and two of the three existing accessory buildings on the property. Originally the applicants' proposal for the residential lot with all three of the existing outbuildings would be a total lot size of approximately 0.85 hectares (2.1 acres). Planning Staff raised concerns on the size of the lot and the applicants revised the lot size to 0.63 hectares (1.56 acres) to be more supportable and consistent with the Township's consent policies found in Section 18.13. Furthermore, the proposed lot size would also provide adequate space for the replacement of private services, if required in the future by the applicants or subsequent owners.

In addition, as the proposed lands to be severed is located south of the Township's Natural Heritage System features and will not impact their ecological function, the general intent and purpose of Section 10 is being maintained. For these reasons,

Planning Staff consider the proposed Surplus Farm Dwelling Severance to be consistent with the Township's Official Plan, subject to the conditions of approval as indicated.

Does the proposal conform to the Township of West Lincoln Zoning By-law (2017-70)? Yes ☒ No ☐

Current Zone(s): Agricultural 'A', Environmental Conservation 'EC' & Environmental Protection 'EP'

As a condition of approval, the lands to be severed with the residence will be rezoned to Rural Residential 'RuR' and the remnant farmland will be rezoned to Agricultural Purposes Only 'APO' to restrict any future residential uses on Parcel 2 (see Survey Sketch, found in Attachment 2). The Zoning By-law Amendment application will also recognize the deficient lot size of Parcel 2, being approximately 34.0 hectares (84.02 acres) whereas, Table 12 in Part 5 of the Township's Zoning By-law 2017-70, as amended, identifies 39 hectares (96.37 acres) to be the minimum lot area within an Agricultural Purposes Only 'APO' zone.

Additionally, the rezoning application for Parcel 1 will recognize the exceeding lot coverage for accessory buildings on a lot, being a total of approximately 305 metres whereas, Table 1-2 in Part 3 of the Township's Zoning By-law 2017-70, as amended, identifies 200 square metres or 8 percent of the lot area as the maximum lot coverage permitted for all accessory buildings on a lot, provided the lot coverage does not exceed 20% for all buildings and structures on the lot. In addition, the rezoning application will recognize an accessory building approximately 100 metres larger than permitted, being approximately 231.3 square metres (shown as building B on the attached sketch, please see Attachment 3) whereas, Table 1-2 in Part 3 of the Township's Zoning By-law 2017-70, as amended, identifies 120 square metres as the maximum ground floor area per building or structure within an Rural Residential 'RuR' zone or Residential Low Density 'R1A' zone. As such, these zoning deficiencies will need to be addressed in the future rezoning application.

Furthermore, it's important to note, as no access will be permitted through the existing driveway (Parcel 1), an entrance permit issued from the Township's Public Works Department will be required to provide access to the retained farmland (Parcel 2) and remaining barn (shown as 370.3 square metres metal clad building on the attached Survey Sketch, please see Attachment 2). As the subject property, specifically the retained frontage along Canborough Road for Parcel 2 will be approximately 230 metres, the Township's Zoning By-law 2017-70, as amended, permits a maximum of 3 driveways on the lot as per Policy 3.12.2(h), subject to meeting the remainder of the regulations found in Part 3.12.2 *Driveways and Parking Aisles*. A condition of approval has been included to address and satisfy the noted concern.

Given both Parcel 1 and 2 will be subject to a future rezoning application and the zoning deficiencies will be addressed, and an entrance permit will be required, the proposal can be considered consistent with the general intent of the Township's Zoning By-law 2017-70, as amended. For these reasons, Planning Staff can support this consent application, and recommend approval of the proposed Surplus Farm Dwelling Severance, subject to the appropriate conditions.

FINANCIAL IMPLICATIONS:

There are no financial implications associated with this report.

INTER-DEPARTMENTAL COMMENTS:

Building Department	No comments received, as such no objections.
Septic System Inspector	As no documentation has been provided relating to compliances with Part 8 of the Ontario Building Code, a condition has been included to satisfy the noted concern. Please see Attachment 4.
Public Works	No objections or comments to provide on this application.
Niagara Peninsula Conservation Authority (NPCA)	Offers the following condition; "That, a detailed survey be completed to determine where the 175.2 contour is and that the surplus farm dwelling lot lines do not dissect the flood elevation of 175.2 to the satisfaction of the Niagara Peninsula Conservation Authority." As such, a condition has been included to satisfy the concern noted by the NPCA as there is an existing Regional road crossing culvert west of the existing driveway. Please see Attachment 4 for the full comments received.
Niagara Region	Recommend deferral until more justification is received regarding the proposed lot size and to demonstrate how the proposal is consistent with and conforms to Provincial and Regional policies.

Respecting Our Roots, Realizing Our Future

Regional staff also recommend the lot size be reduced to the Niagara Official Plan policy requirement of 0.4 hectares. Please see Attachment 4 for the full comments received.

PUBLIC COMMENTS: Yes ☐ No ☒

No public comments received at this time.

CONCLUSION:

Based on the above analysis, Planning Staff recommend APPROVAL of the proposed consent application (B07/2023WL) as outlined in Report COA-021-23, submitted by B & A Heaslip Farms Ltd., property owner of 4813 Canborough Road to permit a surplus farm dwelling severance, subject to the conditions of approval, as indicated.

PLANNING & DEVELOPMENT DEPARTMENT

MEMORANDUM

TO: Stephanie Pouliot – Planner / Secretary Treasurer Committee of Adjustments

FROM: Lyle Killins, Septic Inspection Manager

DATE: October 23, 2023

**SUBJECT: FILE B-07/2023 WL
B & A Heaslip Farms Ltd.
4813 Canborough Road**

Dear Stephanie,

Please be advised that file searches, on-site visit and plan review have been completed relating to the proposed application. No record was located to indicate the date of installation of the sewage system or the contractor involved; however, it would appear that installation occurred prior to enactment of the current Part 8, Ontario Building Code. The sewage system as currently observed may not comply with Code requirement. Thus it is recommended the Committee consider as a Condition of Approval, the following:

The applicant provides to the satisfaction of the Township of West Lincoln Building Department, confirmation from a licensed sewage system designer, installer and/or engineer that the on-site sewage disposal system complies with Part 8 Ontario Building Code requirement.

We trust the preceding serves as required; however, should additional information and/or clarification be required, please contact this office at 905-957-3346.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Lyle Killins', is written over a horizontal line.

Lyle Killins C.P.H.I.(c)

Stephanie Pouliot
Planner I
Township of West Lincoln
318 Canborough Street
Smithville, Ontario L0R 2A0

Dear Ms. Pouliot:

**Re: Regional and Provincial Comments
Application for Consent
Township File: B07/2023WL
Owner: B & A Heaslip Farms Ltd.
4813 Canborough Road
Township of West Lincoln**

Staff of the Regional Growth Strategy and Economic Development Department has reviewed this Consent application to permit a surplus farm dwelling severance of 1.65 acres, which included two (2) of the three (3) outbuildings located on the subject property. Regional staff received notice of this application on October 11, 2023.

A pre-consultation meeting with the applicant for the proposed severance was held on June 8, 2023 with staff of the Township and the Region.

As discussed below, staff recommends that consideration of the application be deferred pending the submission of a Planning Justification Brief in order to demonstrate how the proposed consent is consistent with and conforms to Provincial and Regional policies and plans.

Planning Comments

The subject land is located within the Prime Agricultural Land under the Provincial Policy Statement (PPS), and is designated as Prime Agricultural Area in the Niagara Official Plan (NOP). NOP policy 4.1.1.2 states that prime agricultural areas shall be protected for long-term use for agriculture. In addition, the NOP states that all types, sizes and intensities of agricultural uses and normal farm practices shall be promoted and protected in accordance with Provincial standards within the agricultural system.

Lot creation in prime agricultural areas (outside of specialty crop areas) is restricted under Provincial and Regional policies and may be permitted only as provided under Section 4.1.6 of the NOP and the general provisions of Policy 4.1.4.2. Policy 4.1.6.2 states that *“The severance of a residence surplus to a farming operation may be permitted under the following circumstances:*

- (a) The lot contains a habitable residence, which existed as of June 16, 2006, that is rendered surplus as a result of farm consolidation;*
- (b) the size of any new lot shall be an area of 0.4 hectares except to the extent of any additional area deemed necessary to support an on-site private water supply and private sewage disposal system as determined by Provincial and Regional requirements to a maximum of one hectare;*
 - i. proposals that exceed one hectare may be considered subject to an amendment to this plan; and*
- (c) to reduce fragmentation of the agricultural land base, the retained lot shall be merged with an abutting parcel. Where merging of two lots is not possible, the retained farm parcel shall be rezoned to preclude its use for residential purposes.”*

Staff note that a planning justification brief was requested at the Preconsultation meeting held on June 7, 2023 to address applicable Provincial and Regional policies and demonstrate why the proposed lot size of 1.63 acres is needed to support the proposed surplus farm dwelling severance. No information was provided with the application, however, to demonstrate the need for the proposed lot size.

As such, staff recommends that the proposed lot size be reduced to meet the NOP policy requirement of 0.4 hectares and minimize the amount of prime agricultural land being removed (e.g. moving the proposed northerly lot line so that the second metal clad building remains with the farm). Alternatively, the Committee may consider deferring its decision until additional information is provided sufficiently demonstrating the need for the lot size as proposed.

Archaeological Potential

Staff note that the property is mapped within an area of archaeological potential on Schedule K of the NOP. The Provincial Policy Statement (“PPS”) and NOP state that development and site alteration shall not be permitted on lands containing archaeological resources or areas of archaeological potential unless significant archaeological resources have been conserved or the land has been investigated and cleared or mitigated following clearance from the Province. NOP Policy 6.4.2.6 states that where a site proposed for development is located within an area of archaeological potential, a Stage 1 Archaeological Assessment by a licensed archaeologist is required.

As the proposed surplus farm dwelling severance does not propose any new construction or site disturbance an archaeological assessment is not warranted at this time.

Natural Environment System

The subject property is impacted by the Region's Natural Environment System (NES), consisting of Significant Woodland and the Beaver Creek West Lincoln Wetland Complex.

NOP Policies 3.1.4.8 through 3.1.4.10 discourage/prohibit lot creation which fragment natural heritage features and Key Hydrologic Features. However, since the proposed new lot lines will not fragment any natural heritage features, staff offer no requirements to the proposed severance in this regard.

Regional Roads

Staff note that if the remnant farm parcel requires access to Canborough road, an access / construction permit will be required for a new entrance, which would be required to be located in an area that avoids the existing road crossing culvert west of the existing driveway. Permit fees can be found here <https://www.niagararegion.ca/living/roads/permits/default.aspx>.

Conclusion

Staff of the Regional Growth Strategy and Economic Development Services Department recommend that the proposed lot size be reduced to meet the Niagara Official Plan policy requirement of 0.4 hectares. Alternatively, the Committee may consider deferring it's decision until additional information is provided sufficiently demonstrating the need for the lot size and, thus, how the consent as proposed is consistent with and conforms to Provincial and Regional policies and plans.

Should you have any questions regarding the above comments, please contact the undersigned at Connor.Wilson@niagararegion.ca

Subject: NPCA response regarding B07/2023 - 4813 Canbrough Rd - ARN 260202000714800
Attachments: Regulated Land Map - 4813 Canbrough Rd.pdf

Good afternoon Stephanie,

Thank you so much for circulating the Notice of Hearing B07/2023 (4813 Canbrough Rd - ARN 260202000714800) with the NPCA.

After a review from technical staff the NPCA has the following comments:

- A floodplain study of Beaver Creek was completed in 2023, which indicated that the flood elevation in the subject area is 175.2 m
- The NPCA will not support lot creation in flood hazards.
- NPCA technical staff note that from examining the contours there maybe be a small area of floodplain roughly at the southwest corner of this proposed lot.
- As this area was not identified as floodplain in the 2023 Beaver Creek Floodplain Study the NPCA will request that the Township confirms if there is a culvert under Canbrough Rd (to the south of the proposed lot), to the satisfaction of the NPCA.
 - o If there is no culvert, then the NPCA will not have an objection to the proposed surplus farm dwelling severance as depicted in the provided drawings for review.
 - o If there is a culvert, then the NPCA will request that the following condition be added:
 - That, a detailed survey be completed to determine where the 175.2 contour is and that the surplus farm dwelling lot lines do not dissect the flood elevation of 175.2 to the satisfaction of the Niagara Peninsula Conservation Authority.
- A map is attached that highlights the area in question.

If there are any questions, please feel free to reach out.

Best,
Meghan

REPORT

TOWNSHIP

COMMITTEE OF ADJUSTMENT

DATE: October 25th, 2023

REPORT NO: COA-022-23

FILE NO: B08/2023WL

SUBJECT: **Recommendation Report**
Application for Consent Spring Creek Holdings Ltd. (Ethan Laman–Agent)

LOCATION: 6159 Spring Creek Road, Smithville, ON L0R 2A0

CONTACT: Susan Smyth, Senior Planner

OVERVIEW:

- A consent application has been submitted by Ethan Laman on behalf of Spring Creek Holdings Inc., property owner of 6159 Spring Creek Road, being the location of the Big Country Raw facility.
- This consent application has been applied to permit a boundary adjustment where Part 2 (0.88 hectares) will be added to Part 3 (1.99 hectares) on the attached sketch. Please see Attachment 2.
- Following the consent application, Part 3 will be approximately 2.87 hectares and will allow adequate space to permit the proposed expansion to the existing Big Country Raw facility on the property.

RECOMMENDATION: Yes ☒ No ☐ Deferral ☐

THAT, the application for Consent made by Ethan Laman on behalf of Spring Creek Holdings Inc. as outlined in Report COA-022-23, to permit a boundary adjustment where Part 2 (0.88 hectares) will be added to Part 3 (1.99 hectares), BE APPROVED, subject to the following conditions:

1. That the approval applies to the transaction as applied for.
2. That all municipal requirements be met to the satisfaction of the municipality including servicing connections if required, remitting the cash-in-lieu of park land dedication fee of 2% of the appraised value confirmed through an appraisal report prepared by a qualified appraiser, property maintenance, compliance with Zoning By-law provisions for structures, and any related requirements, financial or otherwise.
3. That an undertaking be provided to provide certainty that the ownership for Part 2 on the attached sketch will match the ownership for Part 3 following consent approval to the satisfaction of the Township of West Lincoln, and that Part 2 merge with Part 3 and the PINS are consolidated.
4. That the applicant applies for and receives Site Plan Approval following the boundary adjustment to the satisfaction of the of the Director of Planning and Building, or designate, if required.
5. That the applicant provides the Secretary-Treasurer with a copy of the transfer documents for the conveyance of the subject parcel, or a legal description of the subject parcel to be registered, together with a copy of the deposited reference plan, if applicable, for use in the issuance of the Certificate of Consent.
6. That any unused wells be decommissioned to the satisfaction of the Director of Planning and Building, or designate, if required.
7. That a final certification fee, payable to the Township of West Lincoln, be submitted to the Secretary-Treasurer.

Respecting Our Roots, Realizing Our Future

8. That all of these conditions shall be fulfilled within a period of two years after the giving of the Notice of Decision of the Committee of Adjustment, pursuant to Subsection 53(41) of the Planning Act, failing which this consent shall be deemed to be refused.

BACKGROUND: Surrounding Land Uses and Natural Heritage

- 6159 Spring Creek Road is approximately 4.66 hectares (11.52 acres) in size.
- The subject property is situated on the east side of Industrial Park Road and on the north side of Spring Creek Road, which is South of Young Street and located at the north east end of Smithville's urban boundary.
- The subject property is designated as within the urban boundary expansion employment area in the Township's Official Plan. The surrounding land uses are designated in the Township's Official Plan as employment area, institutional, good general agricultural lands as well as, Natural Heritage System. The subject property is also located north east of the commercial core.
- A portion of the subject lands as noted forms part of the Natural Heritage System in the Township's OP, effectively being located east and north east of the existing facility as well as, along the east property line to the north east corner of the property.
- The present Natural Heritage features include Provincially Significant Wetlands, Significant Woodlands, floodplain and a fish habitat which forms both an Environmental Conservation and Environmental Protection area over these features. Please see the attached map showing the environmental protection 'EP' zoning layer, however, these features are not a factor of this application.
- These Official Plan designations protect and enhance the existing character of Smithville (Section 6) and support the healthy growth of West Lincoln's Urban Settlement Area and building a liveable community [Policy 5.6(g)].
- Furthermore, the surrounding lands are also zoned industrial employment, office and business park employment, agricultural, as well as, environmental protection and environmental conservation in the Township's Zoning By-law 2017-70, as amended.

CURRENT SITUATION:

Planning Staff have completed an analysis of the proposed Consent application and can provide the following evaluation:

CONFORMITY:

Provincial Policy Statement (2020) Yes ☒ No ☐

A Place to Grow (2019) Yes ☒ No ☐

Greenbelt Plan (2017) Yes ☐ No ☐ N/A ☒

Niagara Official Plan (2022) Yes ☒ No ☐

Does the proposal conform to the Township of West Lincoln Official Plan (2014)? Yes ☒ No ☐

Official Plan Designation: Employment Area (Urban Boundary Expansion) & Natural Heritage System

Provided the consent application has been applied for legal and technical reasons, being to permit the addition to the Big Country Raw facility which would not be currently possible as the subject property has two ownership parcels shown as Part 1 and Part 3 on the attached sketch. Please see Figure 1 for the current ownership boundary and Attachment 2 for the boundary following the consent application. The proposed boundary adjustment will shift the ownership boundary to emerge Part 2 with Part 3, moving the ownership boundary north reducing the area of Part 1 to approximately 1.78 hectares from the current area of approximately 2.68 hectares (see Figure 1).

The proposed building expansion (shown on the attached sketch, see Attachment 2) would be between the noted ownership boundary which is not permitted, as such Policy 18.13.2(f) can be applicable as the proposal is being applied for legal and technical reasons, being to shift the current ownership boundary and expand Part 3 from 1.99 hectares to approximately 2.87 hectares, following Part 2 (0.88 hectares) merging with Part 3 as a result of this consent application.

As noted in Section 18.13, the OP permits the conveyance of lands as part of a minor boundary adjustment that do not result in the creation of a new lot, and are permitted for legal and technical reasons which is the case for this particular proposal. For these reasons, Planning Staff consider the proposed consent application to be consistent with the Township's Official Plan, subject to the conditions of approval as indicated.

Does the proposal conform to the Township of West Lincoln Zoning By-law (2017-70)? Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	
Current Zone(s): Industrial Employment 'M2' & Environmental Protection 'EP'	
<p>The subject property, being 6159 Spring Creek Road is zoned Industrial Employment 'M2' in the Township's Zoning By-law 2017-70, as amended. The existing use will be maintained, being the continual operation of the Big Country Raw facility which is a permitted principal use within the Industrial Employment 'M2' zone as noted in Table 18 found in Part 8 of the Township's Zoning By-law. Additionally, the upcoming expansion to the facility as proposed is not located within the environmental zone on the property which maintains the intent of Part 11 of the Township's Zoning By-law, being that no development is permitted within Environmental Protection 'EP' zones.</p> <p>As noted in the application, the future intent will be to expand the existing Big Country Raw facility on the property which requires the proposed boundary adjustment as well as, a future Site Plan Control application to ensure compliance with the Township's Zoning By-law. Given the property will be subject to the noted planning application which is not required as part of this consent application, the proposal can be considered consistent with the Township's Zoning By-law 2017-70, as amended. For these reasons, Planning Staff can support this consent application, subject to the conditions of approval.</p>	
FINANCIAL IMPLICATIONS:	
There are no financial implications associated with this report.	
INTER-DEPARTMENTAL COMMENTS:	
Building Department	No comments received, as such no objections.
Septic System Inspector	No objections to provide as the application as proposed allows compliance with Part 8 of the Ontario Building Code.
Public Works	Offers no concerns, but have noted during the future Site Plan application, a road widening will be requested as a condition of the planning application. The road widening will at a minimum upgrade Industrial Park Road to a Collector road. Please see Attachment 3 for the full comments received.
Niagara Peninsula Conservation Authority (NPCA)	Offers no objections as the proposed consent has demonstrated sufficient room outside of the flood hazard to accommodate a building envelope, including space for servicing and amenities. Please see Attachment 3 for the full comments received.
Niagara Region	Offer no objections and are satisfied that the proposed consent application is consistent with and in conformity to Provincial and Regional policies and plans. Please see Attachment 3 for the full comments received.
PUBLIC COMMENTS: Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	
No public comments received at this time.	
CONCLUSION:	
<p>Based on the above analysis, Planning Staff recommend APPROVAL of the proposed consent application (B08/2023WL) as outlined in Report COA-022-23, to permit a minor boundary adjustment where Part 2 (0.88 hectares) will be merged with Part 3 (1.99 hectares) to allow for the upcoming expansion to the existing Big Country Raw facility on the property, subject to the conditions of approval as indicated.</p>

Memo

To: Stephanie Pouliot, Planner I
From: Jennifer Bernard, Coordinator of Engineering Services
Date: October 18, 2023
Re: File B08/2023WL – 6159 Spring Creek Rd

A review has been completed of this application for consent to permit a minor boundary adjustment for the purpose of an expansion of the Big Country Raw facility.

The Township's Transportation Master Plan has identified that Industrial Park Rd will be upgraded to a Collector road at minimum and will therefore require a road widening. This road widening will be requested as a condition of the planning application for the expansion of the business. The proponent was made aware of this requirement at the pre-consultation meeting held on June 21, 2023.

PLANNING & DEVELOPMENT DEPARTMENT

MEMORANDUM

TO: Stephanie Pouliot – Planner / Secretary Treasurer Committee of Adjustments

FROM: Lyle Killins, Septic Inspection Manager

DATE: October 17, 2023

**SUBJECT: FILE B-08/2023 WL
Spring Creek Holdings Inc.
6159 Spring Creek Road**

Dear Ms. Pouliot,

Please be advised the application as proposed allows compliance with Part 8 Ontario Building Code.

Thus, no objection to application as proposed.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Lyle Killins', with a long, sweeping horizontal line extending to the right.

Lyle Killins C.P.H.I.(c)

Stephanie Pouliot
Planner I
Township of West Lincoln
318 Canborough Street
Smithville, Ontario L0R 2A0

Dear Ms. Pouliot:

**Re: Regional and Provincial Comments
Application for Consent
Township File: B08/2023WL
Owner: Spring Creek Holdings Inc.
Agent: Upper Canada Consultants
6159 Spring Creek Road
Township of West Lincoln**

Staff of the Regional Growth Strategy and Economic Development Department has reviewed this Consent application to permit a minor boundary adjustment where approximately 2.17 acres from the abutting parcel (Roll Number: 260203001318406) will be conveyed to the property municipally known as 6159 Spring Creek Road in the Township of West Lincoln. Regional staff received notice of this application on October 11, 2023.

A pre-consultation meeting with the applicant for the proposed boundary adjustment was held on June 21, 2023 with staff of the Township, Region and Conservation Authority in attendance.

Planning Comments

The subject property is located within the "Settlement Area" of the *Provincial Policy Statement, 2020* ("PPS") and the Urban Area of Smithville in the *Niagara Official Plan, 2022* ("NOP"). The property is also within a "Designated Greenfield Area" within the *A Place Grow Growth Plan for the Greater Golden Horseshoe, 2020 Consolidation* ("Growth Plan") and the NOP. The PPS, Growth Plan, and NOP together direct development to take place in urban areas to support intensified development where appropriate servicing and infrastructure exist. In addition, the NOP and Growth Plan set out for development within Designated Greenfield Areas to be planned with a target of 50 people and jobs per hectare across all Designated Greenfield areas.

The subject property is further located within an Employment Area (WL-1 Smithville Industrial District) as set out in Schedule G of the NOP. The purpose of an employment area is to safeguard these lands for long-term employment uses from encroaching non-employment uses. Specifically, Knowledge and Innovation Employment areas are intended for clusters of higher density employment uses, including office parks, and major institutional uses. Table 4-2 of the NOP sets out for a density target of approximately 20 jobs/ha for the WL-1 Smithville Industrial District. The proposed boundary adjustment will facilitate a cold storage building addition to the existing industrial facility (Big Country Raw) and is aligned with the envisioned function of the area.

Archaeological Potential

Staff note that the property is mapped within an area of archaeological potential on Schedule K of the NOP. The Provincial Policy Statement (“PPS”) and NOP state that development and site alteration shall not be permitted on lands containing archaeological resources or areas of archaeological potential unless significant archaeological resources have been conserved or the land has been investigated and cleared or mitigated following clearance from the Province. NOP Policy 6.4.2.6 states that where a site proposed for development is located within an area of archaeological potential, a Stage 1 Archaeological Assessment by a licensed archaeologist is required.

Staff confirm that the Stage 1 – 2 Archaeological Assessment and Ministry Acknowledgement letter has been submitted to this office on October 16, 2023 and, as such, staff has no further requirements in this regard.

Conclusion

Staff of the Regional Growth Strategy and Economic Development Services Department does not object to the request for a minor boundary adjustment which is consistent with and in conformity to Provincial and Regional policies and plans, subject to the Township’s satisfaction.

Should you have any questions regarding the above comments, please contact the undersigned at Connor.Wilson@niagararegion.ca

Subject: NPCA response regarding B08/2023 - 6159 Spring Creek Rd
Attachments: Regulated Land Map - 6159 Spring Creek Rd.pdf

Good afternoon Stephanie,

Thank you so much for circulating the Notice of Hearing B08/2023 (6159 Spring Creek Rd – ARNs 260203001318400 and 260203001318402) with the NPCA.

After a review from technical staff the NPCA has the following comments:

- The subject lands are impacted by the Spring Creek floodplain.
- The NPCA will not support lot creation in flood hazards.
- However, the policies may support lot additions and boundary adjustments within the floodplain.
- The proposed consent has demonstrated that there is sufficient room outside of the flood hazard to accommodate a building envelope, including space for servicing and amenities.
- As such, the NPCA has no objection for the proposed consent application.
- A map is attached for reference.

If there are any questions, please feel free to reach out.

Best,
Meghan

MEMO TO THE COMMITTEE OF ADJUSTMENT

October 23rd, 2023

Attn: Committee of Adjustment Members Sitting at the October 25th 2023 Hearing (Bonnie Baarda, Deborah Coon-Petersen, Peggy Cook)

**Re: Change of Condition Request
7330 Concession Road 3, West Lincoln Ontario
Surplus Farm Dwelling Severance Application B13/2021WL –Sikkens**

Please be advised the subject application being B13/2021WL is requesting a change of conditions pursuant to Subsection 53(23) of the *Planning Act* to rectify the applicants' original request and application brought forward to the Committee in 2021 which did not include a partial discharge of mortgage and mortgage or charge. The Committee of Adjustment granted the conveyance for the surplus farm dwelling severance on **March 30th, 2022**. By approving the request, the Committee is authorizing the original application be amended to include the partial discharge of mortgage as a condition to also be completed for the consent application by no later than **October 25th, 2025**, being Condition 12 the original deadline to fulfil the conditions, pursuant to Subsection 53(41) of the *Planning Act*, failing which this consent shall be deemed to be refused.

Yours sincerely,

Brian Treble, MCIP, RPP
Director of Planning & Building
